CASH & CASH EQUIVALENTS

\$256.8m ↑676%

Cash & Cash equivalents increased \$223.7m from 30 June 2019 including cash inflows from a capital raise of \$241.6m net of transaction costs in relation to the acquisition of PFS. The Group repaid a \$15.0m debt facility in December 2019 prior to the expected draw down of a syndicated financing agreement upon completion of the PFS acquisition.

Statutory operating cash inflow for the first half was \$8.1m inclusive of acquisition costs paid of \$0.5m and tax & interest of \$0.5m which fall outside of EBITDA. The Group was impacted by timing differences on annual payments made in the first half for insurance, FY19 STIP and transition success fees totalling \$4.0m. Excluding these timing differences which will not recur in the second half Operating Cash Flow : EBITDA in H1FY20 was 67%. We continue to expect full year cash conversion to be in line with management expectations of between 70-80%

The Group invested \$4.9m primarily related to internally generated software development of \$3.4m and the acquisition of software from Paywith Worldwide, Inc. of \$1.5m that supports EMLs Salary Packaging vertical. Significant internally developed projects included mobile payments technology, a new mall till system and a web based card management portal for our Salary Packaging vertical.

The Group has a signed letter of commitment for a debt facility of up to \$175.0m in connection with the acquisition of PFS and for ongoing corporate purposes. No debt was drawn on this facility in the period.
